80.81%

Projects

Online Bakery Shop System — PHP, MySQL, HTML, CSS, JavaScript

Aug 2025 – Feb 2026

- Developed a full-stack bakery management web application using PHP, MySQL, HTML, CSS, and JavaScript.
- Implemented core functionalities including user registration, authentication, login/logout, shopping cart management, order placement, and product management.
- Designed and optimized SQL queries and database structures to improve data retrieval and application performance.
- Enhanced user experience through responsive UI design and intuitive navigation across multiple devices.
- Applied Software Development Life Cycle (SDLC) principles including requirement analysis, design, development, testing, and deployment.

Internship / Virtual Experience

Tata Cybersecurity Analyst Job Simulation – Forage

May 2026

- Completed practical cybersecurity simulation tasks focused on threat analysis, security assessment, and incident investigation.

Ademy Graduate – Cloud Foundations Training Badge (2025)

Sept 2025

- Gained hands-on experience with AWS cloud services, cloud architecture concepts, and deployment fundamentals.

Technical Skills

Programming Languages: Java, C++, PHP, JavaScript

Frontend Technologies: HTML, CSS, React.js

Databases: MySQL, SQL

Cloud Technologies: AWS Cloud Foundations

Tools & Platforms: Git, GitHub, Docker, XAMPP, Android Studio, Eclipse IDE, Google Colab, MS Office

Core Concepts: Object-Oriented Programming (OOP), Database Management Systems (DBMS), Software Development Life Cycle (SDLC)

Certifications

- Java Programming - Coading Seekho
- Foundation of Prompt Engineering – AWS (2026)
- AWS Cloud Practitioner Certification - Self Paced
- Introduction to Generative AI Google

Achievements

- Received recognition and rewards from GeeksforGeeks for active participation and continuous learning achievements.
- Secured First Rank in Higher Secondary Education (Class XII).
- AI Skills Fest 2026 Batch
- Summer SkillUp Program GeeksForGeeks
